

Meridian Labs - IT Security Policy

Policy effective January 1, 2026

1. Access & Authentication

- All account passwords must be at least 14 characters long and include a mix of letters, numbers, and symbols.
- Multi-factor authentication (MFA) is mandatory for every internal and cloud system, with no exceptions.
- Passwords must be rotated every 180 days; reuse of any of the previous 5 passwords is prohibited.
- Workstations must automatically lock after 10 minutes of inactivity.

2. Data Classification & Incident Response

- Company data is classified into four tiers: Public, Internal, Confidential, and Restricted.
- Restricted data, such as customer financial records, must never be copied to personal devices or removable media.
- Suspected security incidents must be reported to the security team within 1 hour of discovery via the incident portal.
- All laptops issued to staff are protected with full-disk encryption by default.
